# Topics Covered in this Module

- Twenty years ago there wasn't much info available on software patterns
  - e.g., some early papers on software patterns include
    - P. Coad, "Object-Oriented Patterns," *Communications of the ACM*, 9/92
    - R. Johnson, "Documenting Frameworks using Patterns," OOPSLA '92
    - Gamma, Helm, Johnson, Vlissides, "Design Patterns: Abstraction & Reuse of Object-Oriented Design," ECOOP '93

- Coverage of software frameworks starts even further
  - e.g., some early papers on software frameworks include
    - R. Johnson & B. Foote, "Designing Reusable Classes", *Journal of Object-Oriented Programming*, '88
    - G. Andert, "Object Frameworks in the Taligent OS," IEEE Compcon, '94

- This module provides pointers to some of the ever growing literature on these topics that have emerged over the past several decades

# Pattern Conferences

- The Hillside Group Sponsors many different conferences
  - e.g., PLoP, EuroPLoP, AsianPLoP, ScrumPLoP, VikingPLoP, SugarLoafPLoP, UP, & ChiliPLoP,
- These conferences focus on writers workshops to better improve patterns through group exposure
  - See [www.dre.vanderbilt.edu/~schmidt/writersworkshop.html](http://www.dre.vanderbilt.edu/~schmidt/writersworkshop.html) for more information on writers workshops
- Each conference offers advanced topics for more adept pattern writers
- Participants have the opportunity to refine & extend their patterns with help from knowledgeable patterns enthusiasts
